

Dr. Steven J. Hughes

Good at Doing Things:

Montessori Education and Higher-order Cognitive Functions

Monday, August 30th 7:00 p.m.
Edgewood United Church
469 North Hagadorn, East Lansing

In this highly visual, rapid-paced and entertaining talk, Dr. Hughes describes how Maria Montessori's brain-based approach to education provides an unparalleled foundation for the development of academic, social, and executive functions critical for advanced problem solving and lifetime success. He shows how Montessori education parallels what we now know about brain development and fosters the development of advanced cognitive functions, social cognition, and such higher-order competencies as empathy and leadership. For more information, visit www.goodatdoingthings.com.

This evening with Dr. Hughes has been planned for all parents of our Montessori community.
Please make arrangements for childcare in advance.
